PROJECTS

TODO Website. Led the end-to-end development of a dynamic Todo website, leveraging advanced technologies for an enhanced user experience. Utilized Chakra UI and Material UI Frameworks to craft an intuitive and visually appealing frontend. The seamless integration of Firebase as the database facilitated real-time data storage and retrieval. Strapi was employed as the backend system, efficiently managing server-side functionalities. The project was built on Next.js, showcasing proficiency in this powerful React framework for server-rendered applications.

Ryzolve Website. Developed and implemented the innovative Ryzolve framework as a key component in a company project, showcasing my commitment to cutting-edge solutions. This experience significantly elevated my professional skills, providing hands-on expertise in creating efficient and scalable applications. The successful integration of Ryzolve underscored my ability to drive impactful advancements within project environments, highlighting my adaptability and forward-thinking approach.

SUMMARY

My 5 months of hands-on experience aim to enhance coding skills and collaborate effectively with agile development teams, contributing to innovative Web Development projects using languages such as React JS, Next JS, and Javascript.
